

Opportunity

Front End Developer

Location: UK or remote

We are looking for a front-end web developer who is passionate about modern web technologies. You will be leading the development of a wide variety of real-world systems including database systems, mobile applications and industrial control and monitoring systems, as well as helping to push forward our web development platform. This is not your average web developer job - we need a self-starter who can lead the Development effort. We will rely on you to develop real-time interaction to create intuitive multi-user interfaces and control physical devices, work which is both technically challenging and rewarding.

This is a varied role with opportunities to focus on areas that interest you and also to develop your skills in other areas. We're looking for someone who is keen to keep learning, who takes pride in their work and always strives to improve. You will have the opportunity to influence key development decisions - we want someone who can use their skills to teach us something as well.

REQUIREMENTS:

- Languages: Javascript or Typescript, CSS and HTML
- Experience of React, Vue, AngularJS or JQuery
- Libraries: C3 for charts
- Knowledge of working with following servers: CPU: Intel Core i7-12700 Memory: 64GB or 128GB Videocard: GrForce 30 series
- Experience with ITSM software (BMC, Landesk, Cherwell, Heat, Axios, HP, etc.).
- System integration experience using web services and other web-based technologies such as XML, HTML, AJAX, CSS, HTTP, REST/SOAP
- Experience with relational databases (e.g. MySQL, Oracle)
- Knowledge of IT Service Management & Operations. ITIL Service Delivery processes and ITIL v3 Certifications is big advantage.
- More than 5 years of experience in Web Applications development in relevant roles.
- Strong communication and interpersonal skills including an ability to convey technical information using non-technical language.
- Excellent troubleshooting skills with ability to demonstrate influence in a consultative fashion to stakeholders and other team members.

If you are interested, please send your CV and cover letter to info@Statistica.com, please mention in the subject of the email the vacancy name "Front end developer".
